

Dear Huntington Community,

We are writing with very exciting news: Effective today, Huntington Hospital is now an affiliate of Cedars-Sinai Health System.

We entered into this affiliation so that we can sustain our 129-year commitment to compassionate community care. While drawing on the extraordinary strengths of this affiliation, Huntington's unique culture as a community institution, governed by our local board with our own employees and medical staff, will continue. In addition, philanthropy and volunteer support will remain locally controlled by Huntington Hospital for the benefit of the communities we serve.

Being part of Cedars-Sinai Health System brings many benefits to our community, our employees and our medical staff. The health system has committed to investment in Huntington Hospital in many areas, including enterprise information technology, expanded ambulatory services and enhanced physician development. There will also be many opportunities for collaborations with the other entities in the health system — sharing expertise and resources that further strengthen Huntington and our longstanding commitment to providing affordable, high-quality care to the San Gabriel Valley.

One thing that won't change is our ongoing focus on providing excellent, compassionate patient care to our community. It has always been, and remains, our top priority. This new affiliation with Cedars-Sinai ensures we can continue to meet this commitment for decades to come.

We have attached a list of Frequently Asked Questions (FAQ). Please feel free to direct any further questions or concerns to questions@huntingtonhospital.com. While we may not have all the answers now, we will answer all questions we can. We appreciate your continued commitment to this hospital, our patients, and our community. We look forward to working together to preserve our legacy of compassionate, community-based care as we look to a new and brighter future for Huntington Hospital.

Sincerely,

Jaynie Studenmund
Huntington Hospital Board Chair
